Subject: Series' 1500, 2000, 4300 and 4500 insulated doors,

We have no objection to the use of your insulated doors in federally inspected establishments under the following conditions to prevent contamination of meat and poultry products:

1. The FSIS inspector-in-charge is notified prior to installation of the insulated doors as to the time and place the insulated doors will be installed.
2. Any change in formulation, label text, product, company name, or company address voids this letter.

Please be advised that the improper application of your product which results in the contamination of meat and/or poultry products will result in appropriate action by FSIS. This letter does not constitute an endorsement of your product.

Sincerely,

Karen M. Wesson

Karen M. Wesson, DVM
Director,
Facilities, Equipment and
Sanitation Division
